

Face In the Crowd (Duet With Trijntje Oosterhuis)

Lionel Richie

I'm just a face in the crowd
You probably don't know me as I don't stand out
And I'm sure your heart doesn't beat for me, no And when you're cold and lonely there are not my arms
You long to feel around you to keep you safe and warm
No I'm just a face in the crowd you can't see Save a little love for me
Save a little love for me yeah
Save a little love for me yeah yeah
And I will save my love for you
My face in the crowd Don't know your name, don't know mine
Yet I'm wearing all initials round this heart of mine
I don't need no proof to know that you are there, yeah Hey, my heart is strong and my wings are wide
I'm true to all my colors and I wear them all with pride
I am your face, the face in the crowd So save a little love for me
Save a little love for me yeah
Save a little love for me yeah yeah
Cause I'll save my love for you
My face in the crowd In the twilight sometimes we meet
Just before we wake or as we fall asleep
I still can't see your face and I know you can't see mine
But I can feel your heart beat, you can hear my voice
You touch my soul and my soul touches yours We make a promise somewhere down the line
Somewhere down the line So save a little love for me
Save a little love for me yeah
Save a little love for me yeah yeah
And I'll save my love for you
All my love, my love
My face in the crowd Don't know the color of your skin but I felt the love that lies within
I'm sure, I know without a doubt I'll find your face in the crowd
I'll never let this feeling slide no world can put my faith aside
I'm sure, I know without a doubt I'll find your face in the crowd
