Animal

Prick

I wait all night for you
The priceless coat you wear
Fox or chinchilla, beaver, it doesn't matter
To me it's hairI can't get anything done
With you walking around like that
I can't take a poke at fun
With that animal on your backI wake up wanting you
But you are rarely there
I howl a song and I prowl and long
I growl but you don't careI can't get anything done
With you shaking around like that
I can't take if off for fun
With that animal on your backI can't get anything done
With you shaking around like that
I can't take if off for fun
With that animal on your backAnimalDo you like that?
How 'bout this? You like this
Animal, a naked history
Shattered in a bad rapBut those days, decades
Dollars, and centuries
It's a tail in a trap
You really don't know, do you?Consent is all I need
To bring out the savage in me
Your scent is all I need
To bring out the animal in meI can't get anything done
With you shaking around like that
I can't take if off for fun
With that animal on your backAnimal, animal
Animal, animal
Animal, animal
