

Was It Worth It?

The New Synthesizer Experience

I've been dragged through mud here
'Cause we were beat up and torn
But when your sight comes back
To me it sure isn't gonna work
We're lost, we're tripping
Beyond all get out
But I'm lost, I smashed you down
Was it worth it?
Murdered, it's down under flowers
No way that I'm doing it again
Murdered, it's me up first
Fuck you, I guess it was worth it
So I can't shake it
You run away because you can't take it
I'm lost far below
And I'm know that, I know you want it
Murdered, it's down under flowers
No way that I'm doing it again
Murdered, it's me up first
Fuck you, I guess it was worth it
Murdered, it's down under flowers
No way that I'm doing it again
Murdered, it's me up first
Fuck you, I guess it was worth it
