

# How Can a Man With So Many Friends Feel So Alone

## Eagles of Death Metal

Sometimes I feel all alone  
I know it's such a strange feeling  
Cause I used to have so many friends  
The few I have left, I hold them close to my heart  
Cause tomorrow I might be all alone I might be all alone, oh, I might be all alone, oh  
I might be all alone, oh, I might be all alone There are choices to make  
But I feel scared and I'm sad  
Cause I'm feeling there ain't no trust at all  
Woke up, had it all, then come nightfall  
I've got nothing left but heart shaken down Left with nothing at all, oh, left with nothing at all, ooh  
I've got nothing at all, oh, I've got nothing at all
