

Down Brownie

Zz Top

When I woke up this mornin'
Had a smile run across my face
My baby from town just had to get down
Come and drag me all over the place Gotta drive on a flatbed trailer truck
Down on Highway 59
I had the blues and my baby, she knew
She's holdin' little piece of mind Down Brownie
My Brownie downtown
Down Brownie Got my share and I'm a black hand cotton field
Just to try and keep myself alive
Eatin' red beans and rice
With the right sauce, it's nice
Or anything you wanna try Now, I'm hitchin' a ride back from Brownie's
I'm kind of sad but I feel alright
The cold night it stings but I got me some wings
I'll be flyin' into Houston tonight
