Light The Night

Down With Webster

(Verse 1):
I'd go for it, it's not over yet
I swear to god that I'm not sober yet
Put your cup in the air, and toast with it
I'm way too low to de holster it
Pass me that torch, I go with it
Since I got the rock now, roll with it
If they open it up, we're closin' it
Let's go
(Chorus):
I know and I know and I know and I know
I'm gon' light yeah, I'm gon' light yeah,
I'm gon light the night up, yeah
I know and I know and I know and I know
I'm gon' light yeah, I'm gon' light yeah,
I'm gon light the night up, yeah
Yeah, yeah, yeah, I'm gon' light the night up, yeah
(Verse 2):
Just walked in
Half past 10
Bottle full of somethin' that'll make your head spin
Amps on ten
I'm there too
If you're not there yet, gonna be there soon
Yes I get rip
Yes I get right

Pass my cup and shit's gon' get bright
'Cause I shine in the limelight, properly
I hope the nights got a saved spot for me, GO!
(Chorus):
I know and I know and I know and I know
I'm gon' light yeah, I'm gon' light yeah,
I'm gon light the night up, yeah
I know and I know and I know and I know
I'm gon' light yeah, I'm gon' light yeah,
I'm gon light the night up, yeah
Yeah, yeah, yeah, I'm gon' light the night up, yeah
Yeah, yeah, yeah, I'm gon' light the night up, yeah

(Verse 3):
Well I'm a fire in the sky, oh
Take a look and watch me fly, oh
Put your fire in the sky, oh
If you wanna know what I know
Light the night, we light the night up
Light the night, we light the night up
Light the night, we light the night up
Light the night, we light the night up
Light the night, we light the night up
Light the night, we light the night up
Yeah, yeah, yeah, I'm gon' light the night up, yeah
Yeah, yeah, yeah, I'm gon' light the night up, yeah
