Die Alive

Tarja

Open up the night
Led by just a feeling
All around is light
Everything is healingNo more fate and no more mystery
Even as time falls away, I live my days
Every moment and its memory
Not only to survive to die aliveOverwhelming love
Heaven's just a feeling
Singing in my blood
Keeping me from kneelingNo more fate and no more mystery
Even as time falls away, I live my days
Every moment and its memory
Not only to survive to die aliveDie aliveNo more fate and no more mystery
Even as time falls away, I live my days
Every moment and its memory
Not only to survive to die aliveDie alive
Die alive
