## K CAMP

They say they want Camp back  
Like I went somewhere or something I'm the boy but you knew it  
Fuck what you thought  
Kick that game to you niggas  
I spit propane to you bitches  
I go insane for these riches  
Bought me a chain off these benjis  
Stay in your lane, I'm not friendly  
Just bought my bitch a new Bentley  
I got to deal with so many, I like my hoes in they 20's  
I might just fuck off her Remy, fill up my cup with that Henny  
Might make you mine, please don't tempt me  
No new friends, don't need any  
Just might go Blanco like Benny  
One time for my nigga Kenny  
I'm so cold, free my niggas down the road  
I'mma ball on you hoes  
Never fall for the code, I would never sell my soul  
I'd rather sell a bitch  
Fuck you niggas, I'm rich  
Champagne and Louis V, I'm taking my pick  
Walk into the Louis store  
Seen that, spent that  
Walk into your bitch's crib  
Seen that, killed that  
Walk into the bank door  
Seen that, flipped that  
I can't trust no lame ho  
Seen that, did that I'm in LA in that black truck  
Feeling like the president  
Windows down, vibing  
Please don't take me out my element  
Only thing changed 'bout a nigga is the residence  
Fuck you lame hoes, I ain't buying if you selling it  
Stop playing games nigga, I ain't got no time for it  
I feel like just spoiling her, I might buy her Tom Ford  
I can see that money with my eyes closed, blindfold  
You can say whatever motherfucker, yeah I grind for it  
I ain't cutting no slack, promise I won't go back

These niggas ain't playing fair, pretty sure you know that  
Camp what's that you smoking nigga? I call this the gold pack  
Walk inside of Louis, bought the whole rack  
Walk into the Louis store  
Seen that, spent that  
Walk into your bitch's crib  
Seen that, killed that  
Walk into the bank door  
Seen that, flipped that  
I can't trust no lame ho

Seen that, did that Run that money up, run that money up  
Run that money up, run that money up  
Run that money up, run that money up  
Run that money up, run that money up  
Run that money up, run that money up  
Run that money up, run that money up  
Run that money up, run that money up  
Run that money up, run that money up

Walk into the Louis store  
Seen that, spent that  
Walk into your bitch's crib  
Seen that, killed that
