# Little While

## Sunbeam Sound Machine

scratch by the smile
i'd let her change my life
but in a little while
i'd let her change my mind
burn burn burn the fire
burnin' through my head
in another while
i'll change my mind again
i've got lots of futures in my head
i've got lots of futures in my head
i've got lots of futures in my head
i've got lots of futures in my head
this strange perception
is stuck against my breath
but if i lose my attention
i'll change my mind again
i've got lots of futures in my head
i've got lots of futures in my head
i've got lots of futures in my head
i've got lots of futures in my head
i've got lots of futures in my head
i've got lots of futures in my head
i've got lots of futures in my head
i've got lots of futures in my head
i've got lots of futures in my head
i've got lots of futures in my head
i've got lots of futures in my head
