Somebody to Hate

16Volt

you're like the poison that infects defenseless minds
you're like the evil that's marauding all mankind
you're like the millions who will kill in their gods name
the only difference is you need someone to blameyou want somebody to hate
you need somebody to hateyou're the pandemic that is eating up the earth
no way to stop it cause of unrelenting thirst
the burning hunger that will set us all aflame
you blow apart when you have no one to blameyou want somebody to hate
you need somebody to hate.
