

Shook

Thousand Foot Krutch

"Shook"

[Chorus]

I feel shook

Everytime I close my eyes and travel into the place in the back of my mind

It's A place where memories hide and my thoughts combine

I see places and thousands of faces all at the same time

Now look

Everybody close your eyes and travel into the place in the back of your mind

And Now run into the place you're afraid to climb

That's where you'll find me

You'll always be two steps behind me

[Verse 1]

Outside these streets are cold as ice

Never thought I'd have the chance to come alive again

See through your eyes again (it takes me away)

And I've never waited in my life

Like I did when I stand under Your sky again

Try again

[Chorus]

I feel shook

Everytime I close my eyes and travel into the place in the back of my mind

It's A place where memories hide and my thoughts combine

I see places and thousands of faces all at the same time

Now look

Everybody close your eyes and travel into the place in the back of your mind

And Now run into the place you're afraid to climb

That's where you'll find me

You'll always be two steps behind me

[Verse 2]

It all unwinds but gets tangled up in time

When it hits like a train running through my mind again

I can hear those lies again (it takes me away)

And I've never fallen in my life
Like I did when I fell into Your arms again
Sound the alarms again

[Chorus]

I feel shook

Everytime I close my eyes and travel into the place in the back of my mind
It's A place where memories hide and my thoughts combine
I see places and thousands of faces all at the same time

Now look

Everybody close your eyes and travel into the place in the back of your mind
And Now run into the place you're afraid to climb
That's where you'll find me
You'll always be two steps behind me

[Verse 3]

I can see things clearer this time
Wont be long now till everythings alright
Take my hand and lets walk into the light
I'm not dying here tonight we will survive

[Chorus]

I feel shook

Everytime I close my eyes and travel into the place in the back of my mind
It's A place where memories hide and my thoughts combine
I see places and thousands of faces all at the same time

Now look

Everybody close your eyes and travel into the place in the back of your mind
And Now run into the place you're afraid to climb
That's where you'll find me
You'll always be two steps behind me

Shook

Everytime I close my eyes and travel into the place in the back of my mind
It's A place where memories hide and my thoughts combine
I see places and thousands of faces all at the same time

Now look

Everybody close your eyes and travel into the place in the back of your mind
And Now run into the place you're afraid to climb
That's where you'll find me
You'll always be two steps behind me
