

Wash Me Away

Jesse James Dupree

Ive grown tired, tired of the person Ive become
The choices I make, the selfish things Ive doneOh oh, Im goin down to waid in the water
Far too long been a wayward daughter
Father wont You change what needs to change?
Wash me away
Til only You remain
I gotta live in faithA little faith and a whole lot of fear
Fair well to who I miss, its time to disappearOh oh, Im goin down to waid in the water
Far too long been a wayward daughter
Father wont You change what needs to change?
Wash me away
Wash me away
Til only You remainCarrying my arrogance, leavin all my pride by the riverside
I can hardly wait to see who Im gonna be when Ill riseSo Im goin down to waid in the water
Far too long been a wayward daughter
Father wont You change what needs to change?Im goin down to waid in the water
Feel Your mercy pull me under
Father, I refuse to leave this place
Til you wash me away
Wash me away
Just wash me away
Wash me away
Til only You remain
