

Helga Takes Flight

Cannons and Clouds

[singing] Understand, understand that I have to leave. Please understand that we have to leave. Before the lights go out. Before the sun comes out. Before the candles burn out. [singing] Take a breath, take a breath, and please just kiss me. You know that a month can pass in a single heartbeat. Before the lights go out. Before the sun comes out. Before the candles burn out. [instrumental music] Before the lights go out. Before the sun comes out. Before the candles burn out. [instrumental music]
