

# Blood Runs Forever

## Scary Kids Scaring Kids

He sees what's beneath her skin, he sees through her soul  
Blue eyes and empty veins, her fortune unfolds  
She steps out of her body that lies on the floor  
Rise, rise from the ashes  
Sink teeth into her, she becomes the cure  
Blood runs forever, blood runs forever  
Full moon illuminates, the streets' breathing fire  
The dead come together to drink their desires  
They march down the allies, the devil's parade  
More of the turbulence that causes disaster  
More of the chaos erasing the borders  
More than confusion and all that she fears  
The dark side is coming, dark side is  
Rise, rise from the ashes  
Sink teeth into her, she becomes the cure  
Blood runs forever, blood runs forever  
Blood runs forever  
She's giving him all the way  
(She's all the way there)  
She's giving him all  
She's prepared to take her plate  
To follow in line, she steps into the dark tonight  
Rise, rise from the ashes  
Sink teeth into her, she becomes the cure  
Blood runs forever, blood runs forever  
Rise, rise from the ashes  
Sink teeth into her, she becomes the cure  
Blood runs forever, blood runs forever  
Blood runs forever, blood runs forever  
Blood runs forever
