

The Only Planet

[Molly Nilsson](#)

Give it an endless sunset
An eternal twilight
I want the peak of the party
To last me my whole lifetime
The lonely planet
It's the only planet for me
I know I'm terrible at saying hi
I'm even worse at saying goodbye
I felt like saying 'I love you'
And getting no reply
Get me a bowl or something to cry in
Keep losing and I'm not even trying
But if it's all just happy endings
Then happiness must be the end
The lonely planet
Is the only planet we're free
The lonely planet
You're the only planet for me
