

# Black Sun (Live at Trix)

## Kadavar

The long way of distress  
They call me from their void  
I try to ignore them  
They've never came so close Darling, oh darling  
Fear's coming up my back  
Slowly, slowly  
'cus all is covered in black Black sun is rising  
While dawn reflect in my eyes  
Dragging across up the mountain  
The cloud walks just behind  
Darling oh darling  
It is the judgement day  
Listen, listen  
Hear what the wizard tells The victims are screaming  
No sign of grace of god  
The spell of witchcrafts magic  
Until they lost their souls  
Darling oh darling  
I never go back there  
Never, never  
'cus all is covered in black
