

Good Love

Poison

I call my baby on the telephone
Said hurry home quick, I'm all alone
Now giddyap, hurry, don't be late
'Cause b-b-baby, I just can't wait, no, no, noTalkin' dirty right in my ear
Making herself so perfectly clear
Needs some good love
Roll her over in the middle of the night
Rock my baby 'til the morning
Gettin' hot, good love, oowGood people say I'm a sinnin' man
But if they knew my baby they would understand
The neighbors keep yellin' 'bout all the noise
Say, "The things you're doin' ain't natural, boy, no, no, no"Talkin' dirty right in my ear
Making herself so perfectly clear
Needs some good love
Roll her over in the middle of the night
Rock my baby 'til the morning
Gettin' hot, good love, oowTalkin' dirty right in my ear
Making herself so perfectly clear
Needs some good loveDad thinks I have gone crazy
And my poor boss swears I'm losin' my cool
But I just want to play with my baby
If you only knew what she would do, yeahTalkin' dirty right in my ear
Making herself so perfectly clear
Needs some good love
Roll her over in the middle of the night
Rock my baby 'til the morning
Gettin' hot, good loveHoppin, bobbin in the middle of the night
Rockin and a rollin 'til the morning
Gettin hot, hot, wild, good love
So damn hot
