Stay Awake

Unjust

[Verse 1]
Lonely one, Where are you
Feel this space of emptiness completely petrifies.
The way you fill that perfect life it soothes you...
The way it wants you to...
I know the loose intentions free inside just let me go.[Pre-Chorus]
I believe, don't you?
It kills the same way
This horde of shame, Shouts through
This useless stail fame[Chorus]
Feel the light it stings this way...
Open mind sweet tourniquet
Stumble Free to soon see freely
So stay awake... never breakFeel the light it stings this way...
Open mind sweet tourniquet
Stumble free but never free
This broken place... never breakSTAY AWAKE!!![Verse 2]
Break through
This empty place of shadows drawn in my sincerity.
These plain old sheets of circumstance, it pulls you...
The way he wants you to...
Eyesore, this piercing soul inside me, I should know[Bridge]
Feel Stars taboo
Pigs squeal in tune
Digs like a tool
Life's free fall...Take this reckoning and suck the thorn to spite you
Drink this jagged pill and feel my kiss inside you!The way you leach our minds in two
You're quickening your Vulcan
This feeling I'm having locked up inside you
Now everything so nice.{Repeat Chorus}
