

Twisted

Brian Mcfadden

It's the end of the way it used to be
Sipping my guilt under a willow tree cause i'm...

Twisted

Dancing in my head to a funky up beat
Tripping on the corner of a two way street
And I, smile a twisted smile when i say...

Let the world keep turning
Cause I'll be standing still
And the earth feels closer to heaven

Just because you're here
I've been chased by angels
I've been drunk out of my mind
And the earth feels better than heaven
Just because you're here

Twisted, twisted

Seeing my reflection in the concrete ground
Leaving my theories on the merry go round cause i'm..

Twisted

Trying to make sense of a traffic sign
Searching for the genius in a nursery rhyme
And I, smile a twisted smile when i say..

Let the world keep turning
Cause I'll be standing still
And the earth feels closer to heaven

Just because you're here
I've been chased by angels
I've been drunk out of my mind
And the earth feels better than heaven
Just because you're here

Twisted, twisted

Let the world keep turning
Cause I'll be standing still
And the earth feels closer to heaven

Just because you're here
I've been chased chased angels
I've been drunk out of my mine
And the earth feels better than heaven
Just because you're
