

# Just Another Lover

## Common Kings

I can say I love you about a thousand times.  
Tell me, what does that mean  
if I'm not here when you need me? Yeah.  
I can say I miss you about a thousand times.  
Tell me, what does that mean  
if I don't answer your calls at night?

And I could be with anybody else, babe,  
but I wanna make this moment last with you.

And I don't wanna be just another lover in your life,  
no significance and you could have been with anybody else right now.  
Am I just another lover in your life?  
Cause I don't wanna be, baby I just wanna be here at the end of the ride, alright.

I could lay and kiss you until the end of time.  
Baby, what does that mean if I'm kissin somebody else.  
I could stay right her eand talk to you all night.  
Baby, what does that mean if I'm not listening? Yeah.

And I could be with anybody else, babe,  
but I wanna make this moment last with you.

I don't wanna be, no, just another lover in your life,  
hey, no significance and you could have been with anybody else right now.  
Am I just another lover in your life? Cause I don't wanna be,  
baby I just wanna be here at the end of the ride, alright.

You act like you don't need nobody else,  
but baby, can't fall in love by yourself.  
I promise you that I will be right here,  
right here, I'ma be right, yeah.

And I could be with anybody else,  
wanna make this moment last with you, you know I do.

And I don't wanna be just another lover in your life,  
no significance and you could have been with anybody else right now.  
Am I just another lover in your life?  
Cause I don't wanna be, baby I just wanna be here at the end of the ride, alright. [x2]
