From Off to On

The Knife

We can not wait much longer
We want happiness back
We want control of our bodies
Everything we've lacked
I think I even liked it
If the feeling was mine
A little something about my body
Is it the warmth inside

When we come home, we want it quiet and calm
We want you to sing us a song
When we come home, we pull the curtains down
Making sure that the TV is on

If you move a little closer
I'll tell you what's my aim
It's every evening on a big screen
Hosted by celebrities
I had a dream about deleting and killer whales
Is it the feeling of your body
Or is it the feeling of mine

When we come home, we want it quiet and calm
We want you to be around
When we come home, we pull the curtains down
Making sure that the TV is on

From off to on
From off to on
