The sun is rising
It sure is dark here
The sun is rising Brutal
Savage
Uncivilized
Treacherous The sun is rising
It sure is dark here
The sun is rising
It sure is dark here And if the colors fade into night
Although we've just begun to leave
And our souls are set against one another
We'll have a reason not to grieve
The sun is rising
It sure is dark here
The sun is rising Insanity
My commodity
Watch them try
To get through to me The sun is rising
It sure is dark here
The sun is rising
It sure is dark here And if the colors fade into night
Although we've just begun to leave
And our souls are set against one another
We'll have a reason not to grieve Brutal
Savage
Insanity
My commodity
Watch them try
To get through to me
