For Crying out Loud

Shiraz Lane

Tired of reading magazines
Just lies and empty promises
We've got to get out
Hearts blackend by greed
Stringing us along for the ride

Preaching without practicing
Bad leading and blind following
We've got to get out
Don't tell me what I need
It's time to let the people decide

Stand up
My brothers and sisters
Stand up
You've got the fire in you

We are the cure
We stand as one
For Crying out loud
This can't go on

Out of the dark, into the light
From here on out it's do or die
We are the cure
We stand as one
For Crying out loud
