Cemetery Savior

Son Volt

You could change your ways
Living long enough to stay
But you're leaving
Before the day breaksYour proving ground is strange
Your proving ground is strange
No pain, no need to blink
You say it's better when you don't thinkYou like to live on the dark side
You like to live on the dark side
A reflection of one
A lifetime with nothing to hideJust don't ask what you do for a livin'
No one here says what they mean
No one here says what they mean
She always takes it easyNever thinks twice
Behind the scenes is where you are
Cemetery savior
Blown down from northern skies
Did time on the asphalt prairieShe's a cemetery savior
Cemetery savior
A cemetery savior
