

Love (Plastik Funk Remix)

Venuto

Excuse me what's your name, I'm a stranger in this town
I've seen that look before, it's gimme love
Well I'm thinking that, we need a place, to start this good thing that we've found
If you feel the same just gimme love Please don't play it safe, I'm a long long way from home
I've travelled much too far to be here on my own
Well I've got to go, you move too slow
This conversations wrong way round
If you feel the same just gimme me love
Love is everywhere you're on my mind
Love is everywhere you're on my mind
Just gimme love, don't hesitate, I'll be leavin' just in time
Just gimme love, don't hesitate, I'll be leavin' just in time Love is everywhere you're on my mind
Love is everywhere you're on my mind
Love is everywhere you're on my mind
Love is everywhere you're on my mind
Love is everywhere you're on my mind
Love is everywhere you're on my mind
Just gimme love, don't hesitate, I'll be leavin' just in time
Just gimme love, don't hesitate, I'll be leavin' just in time
