

The Crawl

Placebo

It takes the pain away
That could not make you stay
It's way too broke to fix
No glue, no bag of tricks Lay me down
The lie will unfurl
Lay me down to crawl Your smile would make me sneeze
When we were Siamese
Amazing grace in here
I pay to have you near Lay me down
(Lay me down)
The lie will unfurl
Lay me down to crawl Don't go and lose your face
At some strangers place
And don't forget to breathe
And pay before you leave Lay me down
(Lay me down)
The lie will unfurl
Lay me down to crawl Lay me down
The lie will unfurl
Lay me down to crawl
