

555

Phish

They're tyin' a blindfold cross my eyes
I rest my face down
Skidding on switchbacks near the sides
Gonna try to bust outGet up, jump out, don't wait, gotta get away
Hop off, roll down, spring up, live another daySprint on cobblestones past the tracks
They kept my money, and my water
Don't wanna run 'cuz I want it back
But I know I really ought toIf I don't break away clean
I might stray from the scene
Make an escape when it arrives:
The 555They bought my soul for a pile of cash
Everybody else got paid out
They're closing in I gotta dash
I gotta find a way outHop off, roll down, spring up, live another day
Get up, jump out, don't waitIf I don't break away clean
I might stray from the scene
Make an escape when it arrives:
The 555
