

Letting Loose

Ninety Pound Wuss

Right now I got it out now

I gotta get it out right now

Something inside my soul is trying to get throughI'll let it out if you can gaze beneath my skin

My muscles, they ache to let you out

I'm letting looseThese nervous nerves of mine in your fire, I feel numb

Letting loose, letting loose, anger strikes a chord

The tension is buildingI'll let you out when you gaze beneath my skin

My body, it breaks to let you out

I'm letting loose
