

Bend or Break

Hannah Jane Lewis

[Verse 1]

I give up, you're getting heavy on me
Take time to breathe
You strung up but I can be your release
So I see beneath[Pre-Chorus]
Beneath your tired eyes
I swear, I caught a glimpse of raw emotion
When you're not in disguise I feel you close to me
Take your devotion[Chorus]
Are we gonna bend or are we gonna break?
Baby, there's no time asking to our mistake
Or are we lost now when they [?]
The silence is so loud, so loud[Verse 2]
So lost but I'm standing right beside you
Don't you disappear

At what cost will you face up to the truth?
Then I'm fixed on you[Pre-Chorus]
Beneath your tired eyes
I swear, I caught a glimpse of raw emotion
When you're not in disguise I feel you close to me
Take your devotion[Chorus]
Are we gonna bend or are we gonna break?
Baby, there's no time asking to our mistake
Or are we lost now when they [?]
The silence is so loud, so loud
Are we gonna bend or are we gonna break?
Baby, there's no time asking to our mistake
Or are we lost now when they [?]
The silence is so loud, so loud[Bridge]

Do you hear me calling?
Meet me halfway
You've been let astray
Baby, we're so close to falling
How can I make you stay?
Do you hear me calling?
Meet me halfway
You've been let astray
Baby, we're so close to falling
How can I make you stay?[Chorus]

Are we gonna bend or are we gonna break?
Baby, there's no time asking to our mistake
Or are we lost now when they [?]
The silence is so loud, so loud
Are we gonna bend or are we gonna break?
When they [?]
The silence so loud, so loud
