

Colder

brainstorm

come, oh, come early
i'm afraid of getting colder, colder
keep the night burning
to shine our love always, always pictures on the wall
her pictures on my wall
she's so beautiful, so beautiful climbing up to fall
i'm climbing up to fall
i'm still staying cool, i'm staying cool one day i'll find you just to prove that i'm real
out of love and hate, of love and hate
and losing ties with common sense, baby, i know
i will make a bridge to place where my mind goes come, oh, come early
i'm afraid of getting colder, colder
keep the night burning
to shine our love always, always thousands of the walls
8 billions of the walls
she's so beautiful, so beautiful digi-dogs around
her digi-dogs around
i'm still staying cool, well, i'm staying cool i'm losing all i have and all i ever will
out of love and hate, of love and hate
i'm losing daydreams and a good night sleep
oh, baby, our passions are hiding deep come, oh, come early
i'm afraid of getting colder, colder
keep the night burning
to shine our love always, always come, oh, come early
i'm afraid of getting colder, colder
keep the night burning
to shine our love always, always always, always
