

Block Party

Swollen Members

[Chorus]

Nuclear power, you can feel how we're changin' up the game,
Things won't be the same after we're done with it,
We're hollerin' at you all like, "Come get it!"
Bah bum bum Bah bum bum When the roof comes tumblin' down,

You know we're the cause of that
I'm a go down in history as some kind of alien rhymer
Who blew up the planet then left in a space liner
An' took all the bitches with him and then hit 'em
My man Nucleus provided this dumb rhythm
Dumb meanin' good, not dumb meanin' stupid
Y'all don't believe it, you can come see me do it
I'm true for my true friends, that's all there is to it
I say what the fuck I feel, get used to it

Ah it's an incredible game,
I got love for my partners we're never the same
Ooh, sometimes I'm wylin' out,
Set the buildin' on fire then you're filin' out
An then, we can turn it into a block party

Get your drinks on, when you call the cops on me [Chorus] I keep a ton of 'em runnin' like mascara
Number one in the last era

Now that's terror, you should call me the crypt keeper
Smoke a green reefer with the Grim Reaper
The kind of rapper you should keep in your household
Turn up the heat 'cause everything out my mouth cold
I'm a ball of ice and rock,

Hurlin' words at a speed that's unorthodox
Clashin' worlds, Pandora's Box,
Burning herb, 20 past 4 o'clock
Turn my cell mates loose, all hell breaks loose
Hit you from above and put some shells on your roof
Comin' to move, run through obstacles,
Retrospect, laser opticals
Seven Nation Armies couldn't hold me back

When I swing a battle axe, I'm a make a skull crack [Chorus] Ain't no holdin' us back, like crack addicts
Tell your whole camp to pack up, I'm back at it
As a matter of fact, I'm strapped with raps for combat
Full contact, you don't want that
Put you in a head lock, twist your arm back

Rip up your throw back, snatch your chains
Gotta lot of great friends, but I act so strange
I wonder if it's anything to do with the fame
I wonder how many of them would like to ruin my name
Careful what you wish for, it might come true
Then every move you make they're like "Can I come too?"
An' everyone you meet's like "How can I join you?"
I ain't pretendin' that it's not strenuous
My girlfriend's jealous and my best friend's envious
Stay focused, please remember this:
Keep friends close, but with enemies I'm friendliest
