Running In Place

[Taylor Hawkins & The Coattail Riders](#)

You're still stranded there
You don't even care
Take the wrong advice
And even take it twiceYou don't even try
It's all in black and white
You're still your mamma's son
Not even number oneDon't try and take it too far
'Cause I won't let you
Don't try and take it apart
'Cause I won't let you
You've seen everything
Still you keep comin' backDon't you go inside
With all your second tries
Why don't you save us all?
Have a private fallTake a friend with you
So, he can see it too
'Cause any friend of yours
Can even find the wordsDon't try and take it too far
'Cause I won't let you
Don't try and take it apart
'Cause I won't let you
You've seen everything
Still you keep
Still you keep coming backDays and weeks behind me
And right back at the start
Days and weeks behind me
And still ain't got that farMemories
I can't say good-bye to my old friends
AgainDon't try and take it too far
'Cause I won't let you
Don't try and take it apart
'Cause I won't let you
You've seen everything
Still you keep
Still you keep coming backNothing to say
Going in my way
Future is ocean wide
So, you can say good-byeNothing to say
Going in my way

Future is ocean wide

So, you can say good-byeNothing to say

Going in my way

Future is ocean wide

So, you can say good-byeNothing to say

Going in my way

Future is ocean wide

So, you can say good-byeNothing to say

Going in my way

Future is ocean wide

So, you can say good-bye
