Monster Man

Soul Coughing

Stop hitching with the monster man
It was a bad plan but I had to get to town
Unbitten but the way I found it was a hand came down
And pow, I got illuminatedStop hitching with the monster man
It was a bad plan but I had to get to town
Unbitten but the way I found it was a hand came down
And pow, I got illuminatedThat's why I have got my mind in my own
That's why I have got my mind in my own
That's why I have got my mind in my own
[Incomprehensible]Hand over the wave
Hand over the water
Hand over the wave
Hand over the waterThe realest of the real
The realest of the realIt's like the burnout said phenomenon
It's like the burnout said phenomenon
It's like the burnout said phenomenonStop hitching with the monster man
It was a bad plan but I had to get to town
Unbitten but the way I found it was a hand came down
And pow, I got illuminatedStop hitching with the monster man
It was a bad plan but I had to get to town
Unbitten but the way I found it was a hand came down
And pow, I got illuminatedTo the ruder bar in a Buddha plump van
It was a stamped can, it was a clamor understanding
And all you people jumping but we raised the bar
You're dumber than a box of rocks, so give up, starThat's why I have got my mind in my own
That's why I have got my mind in my own
That's why I have got my mind in my own
[Incomprehensible]That's why I have got my mind in my own
That's why I have got my mind in my own
That's why I have got my mind in my own
[Incomprehensible]The inscrutable, the irrefutable
The illegible, the indisputable
The undisputedStop hitching with the monster man
It was a
Stop hitching with the monster man
It was a

It was aStop hitching with the monster man
It was a bad plan but I had to get to town

Unbitten but the way I found it was a hand came down
And pow, I got illuminatedStop hitching with the monster man
It was a bad plan but I had to get to town
Unbitten but the way I found it was a hand came down
And pow, I got illuminatedMakes me go on a dig
Makes me go on a dig
Makes me go on a digStop hitching with the monster man
It was a bad plan but I had to get to town
