

# Without A Word

## Comeback Kid

In an effort to win  
I lost it all  
At a standstill  
How easily it's said Now eat your words  
Everything that I wanted to say  
It seemed to die  
It all seemed to die on my lips Another broken heart  
Another hit and miss  
And when nothing else is easy  
How easily it's said Words so easy to be said  
Harder I try harder I fall  
Words so easy to be said  
Competition it seems so useless  
Words so easy to be said  
With an ending all too predictable  
Words so easy to be said
