

# Cocaine Castle

## A\$AP Ferg

[Hook]

Everybody going to this cocaine castle  
You'll probably see your reverend at this cocaine castle  
Pimps and prostitutes at this cocaine castle  
Doctors in their suits at this cocaine castle  
Babies in they pampers at this cocaine castle  
Crying with they grandma at this cocaine castle  
Momma doing drugs at this cocaine castle  
Tryin' to get some buzz at this cocaine castle[Verse 1]

Another day in the crack house  
Where demons be talking to fiends  
Couple hits and a blackout  
Needles be stuck all in their veins  
Sing a song that be stuck all in your brain  
That shit so potent, it have you doing devilish things  
Take a walk through the dark side  
Where a nigga don't see no light  
One hit is all I need, that nigga gon' take your life  
What about yo wife? What about yo kids?  
What about yo crib? What about yo moms?  
What about her tears? What about that shit?  
What about your uncle? He died last year  
From the same thing, you kissed that glass  
To hide your fears  
Bring nothing to your life

You die you die, basing your life upon the hope  
That you gon' get the same high[Hook][Interlude]  
I remember when I was...when i was lit the fuck up  
I was...I just...I just remember that day[Verse 2]  
Trippin' off this weed got a nigga slow motion  
Chills all over my body like some cold lotion  
Tryna wrestle demons like I'm fuckin' Hulk Hogan  
Lookin' for the cure but I'm seein' no potion  
Tryna sleep it off but it only gets worse  
Seems like my whole life fuckin' been cursed  
Devil tryna get me in this fuckin' paradise  
Fucking all these bitches raw just to roll the dice
