

# A Kiss Goodbye

Emile Haynie

Hey, where did I go on?  
Because I don't wanna stop  
Before I go Say goodbye before you leave  
Say goodbye before you leave  
Say goodbye before you leave  
Say goodbye before you leave Did it ever occur that you forgave yourself before I did?  
Did it ever occur that you forgave yourself before I could?  
So I'm not cool with you  
I'm done, I'm done  
I'm done, I'm running  
I run, I run, I run, I'm running And it was so magnificent  
When we had it all  
Before it seemed to slowly go wrong  
And now I don't wanna go on, go on, on  
And how can I forgive you when I don't have the space to  
I'm a fool, I've passed regrets  
Where did you leave, know you already left And did it ever occur that you forgave yourself before I did?  
Did it ever occur that you forgave yourself before I could?  
And did it ever occur that you forgave yourself before I did?  
Did it ever occur that you forgave yourself before I could?  
And did it ever occur that you forgave yourself before I did?  
Did it ever occur that you forgave yourself before I could?  
And did it ever occur that you forgave yourself before I did?  
Did it ever occur that you forgave yourself before I could?
