

# Stay With Me

Toni Gonzaga

When you walked out of my life  
I couldn't help but cry  
You're leaving me behind

When you walked out of that door  
I just wanna scream some more  
Will you turn your back around  
And

Stay with me, stay with me for awhile  
I need someone to save my day  
Someone who makes me smile  
Stay with me, stay with me tonight  
I wanna hold you, i wanna kiss you  
One last time

Yes, the past is haunting me  
Wanted it to go away  
It keeps coming back everyday  
How can i forget your face  
Oh how i long for your embrace  
The longest time  
Will you be mine  
Please

Stay with me, stay with me for awhile  
I need someone to save my day  
Someone who makes me smile  
Stay with me, stay with me tonight  
I wanna hold you, i wanna kiss you  
And

Stay with me, stay with me for awhile  
I need someone to save my day  
Someone who makes me smile  
Stay with me, stay with me tonight  
I wanna hold you, i wanna kiss you  
And

Stay with me, stay with me for awhile

I need someone to save my day  
Someone who makes me smile  
Stay with me, stay with me tonight  
I wanna hold you, i wanna kiss you  
One last time
