

It Must've Been My Boy

Debbie Gibson

Two, three, four, it must've been
It must've been my boy, it must've been my boy
it must've been my boy, it must've been my boy
It must've been There's this guy, you see, he's got all the girls talkin'
Makes 'em sweat just by the way he's walkin'
They wish they had him but they never will, 'cause
There's just one boy I know who can give 'em that extra thrill Oh, sweet jealousy, is this revenge?
'Cause it's me, me, me
Who'll be holding him tonight? Yeah It must've been my boy, it must've been my boy
Yeah, yeah, yeah, yeah, it must've been my boy
It must've been my boy they're talkin' about
It must've been my boy, it must've been, yeah, yeah
It must've been my boy, it must've been There's this girl named Genevieve
I know, what she's got up her sleeve
Think she can steal his heart from me
But that's an impossibility She's only good for just one thing
But me I get to wear his ring
People are talkin' in the street
About the guy who gives off the heat Oh, sweet jealousy, is this revenge?
'Cause it's me, me, me
Who'll be holding him tonight, yeah It must've been my boy, it must've, must've
It must've been my boy, it must've been my boy, it must've, must've
It must've been my boy they're talkin' about
It must've been my boy, who else could it be? yeah
It must've been my boy, ooh, baby, baby
It must've been him that's got them talkin' He's a class-A lover, there's no other
He's the original Romeo, leads the other boys
Shows them where to go Listen up, keep your hands off
Got it? He's my boy, got it? Good, yeah Sweet jealousy, this is revenge
'Cause it's me, me, me
Who'll be holding him, tonight, yeah It must've been my boy, it must've been my boy
It must've been my boy, Who else could it be?
It must've been my boy, it must've been my boy
Who's got them talking about the way, come on, baby
Make the other girls crazy, baby, yeah Must've been my boy they been talkin' about
Must've been my boy who's been turning it out
Must've been my boy they been talkin' about
Must've been my boy, turn it out, baby
It must've been my boy, must've, must've It must've been my boy, get on the streets and get on

Back home where you belong, it must've been my boy
Okay, yeah, thanks
