Bullet

Divinyls

Some people say
Some people do
Some people say they do
Yeah, what about you?
Some people please
Some only tease
If you pull the trigger
You better be ready for me
I?ve been shot like a bullet from a gun
Your love?s got me on the run
I?ve been shot like a bullet through the dark
You?re the target, I?m right on the mark
There?s no mistake
No matter what you do
For my aim is true
And I?m pointing straight at you
Baited words on candied hooks
Makin' eyes and catching looks
Tender traps that are laid so well
You've got me somewhere between heaven and hell
I?ve been shot like a bullet from a gun
Your love?s got me on the run
I?ve been shot like a bullet through the dark
You?re the target, I?m right on the mark
There?s no mistake
No matter what you do
For my aim is true
And I?m pointing straight at you
There?s no mistake
No matter what you do
For my aim is true
And I?m pointing straight at you
Some people lose
And some people win
Some people are never happy
Till they do it again
I?ve been shot like a bullet from a gun
Your love?s got me on the run
I?ve been shot like a bullet through the dark

You?re the target, I?m right on the mark
There?s no mistake
No matter what you do
For my aim is true
And I?m pointing straight at you
