One Fine Morning

Ras G

One fine morning
I'm gonna ride out
Yeah, one fine morning
I'm gonna ride outJust me and the skeleton crew
We're gonna ride out in a country kind of silence
We're gonna ride out in a country silence
Yeah one fine morningYeah it's all coming back to me now
My apocalypse, my apocalypse
The curtain rose and burned in the morning sun
Yeah the curtain rose and burned in the morning sunAnd the mountains
And the mountains bowed down
In the morning sun
Like a ballet of the heart
Yeah the mountains bowed down
Like a ballet
In the morning sunAnd the baby and we all lay in state
Yeah the baby and we all lay in state
And I say "Hey! no more drovering!"
I say "Hey! no more drovering!"When the earth turns cold
And the earth turns black
Will I feel you riding on my back?
Yeah when the earth turns cold
And the earth turns black
Will I feel you riding on my back?And for I am a part of the road
Yeah I am a part of the road
The hardest part
The hardest partMy apocalypse
