TV Womb

Amen

These legs are spread
Guiding tomb
Gun in the mouth
Open woundThey fly around me
And they see what I seeWe can't kill the witness
We can't kill the witness
We can't kill the witness
We can't kill the witnessWith all the children dying
From all that cryingInside my television
Inside my television
Inside my television
Without this resurrectionInside my television
Inside my television
Inside my television
Without this resurrectionLegs are spread
Legs are spread
Legs are spread
Legs are spreadThese legs are spread
Guiding tomb
Gun in my mouth
Open woundThey fly around me
And I see what they seeWe can't kill the witness
We can't kill the witness
We can't kill the witness
We can't kill the witnessWith all the parents dying
From all that lyingInside my television
Inside my television
Inside my television
Without this resurrectionInside my television
Inside my television
Inside my television
Without this resurrectionInside my television
Inside my television
Inside my television
...
