

Love Has Spoken (Original Version)

[khari lemu](#)

Stop walking round here unprepared
Stop being scared
Stop doing all the crazy things you do, that ain't you.
Stop wasting precious time you have
complaining about your circumstance
Believing that you're what you're going through
That ain't you Don't you remember who you are?
Don't you remember, and even after all this time
please tell me why you don't know what you are here to do. Ahhhhhhh(chorus)
Did you know that when I made you
you were pure love
Did you know that when I made you you were whole.
Did you know that you were born of pure divinity
A true mystery to unfold. Fill your heart with love let go of hate
Focus your mind and concentrate
Create yourself and start your life a new.
And I guarantee the moment that you do,
You'll introduce yourself to you. Ahhhh ahhhhhhhhhhhh.....(chorus)
Did you know that when I made you
you were pure love
Did you know that when I made you you were whole.
Did you know that you were born of pure divinity
A true mystery to unfold. Share your world and don't you hesitate
Focus your mind and meditate
Don't be afraid to let the light shine through.
And I guarantee the moment that you do,
You'll introduce yourself to you. La di di di di di di di di di
La di di di di di di di di di di
Di di di di di di di di di di ohh ohh ahhhhhhhhhhhh
ohh ohh ohh ahhhhhhhhhhhh
Love eternal
Love unbroken
Love unending
Love has spoken
(Repeat 2x)
