Wrath

Silent Civilian

Fell on dear ears
Sacrificed someone elses freedom
To be heard
Destroy careless
For the greed of a child bearing
One mans name, his nameHolding on to what they said
Creates a path to our destruction
Breathing life into whats dead
Ignore the wrath of our dysfunctionTortured victim
Circumstance of a system downfall
Theres no hope
Constant regret of the trust
I invested became a tragic lossHolding on to what they said
Creates a path to our destruction
Breathing life into whats dead
Ignore the wrath of our dysfunctionWrath in our lives, break
FuckHolding on to what they said
Creates a path to our destruction
Breathing life into whats dead
Ignore the wrath of our dysfunctionHolding on (holding on)
To what they said (to what they said)
Creates a path to our destruction
Breathing life (breathing life)
Into whats dead (into whats dead)
Ignore the wrath of our dysfunctionWrath
I cant take anymore
Of your fucking bullshit,
You fucking whore
