

Time to Let It Go

Milk 'n Blues

Hoo Hoo Hoo

Hoo Hoo Hoo

Baby, please don't tell me what your day was like

I don't wanna hear 'bout your plans for life

The story we had was so long ago, maybe it's time to let it go

The story we had I don't wanna know, Baby it's time to let it go (listen we gotta go - Say nooo)

I heard someone say you gotta brand new love (brand new love)

Well that aint something I wanna have to think on (Ahhh to have to think on)

So please don't tell me 'bout it, baby it's time to let it go

the story we had I don't wanna know maybe it's time to let it go (Listen we gotta go - Say No No)

- Guitar solo -

I'm tired of listening listen to you crazy talk (La La La)

but your lips are moving I hear nothing at all

the story we had was so long ago, baby it's time to let it go

the story we had I don't want to know, baby it's time to let it go (Listen we gotta go - Say No No)

The rules have changed it's a whole new game

And whoever wants in has gotta learn to play

And whoever wants in has got to learn to play
