

Night Noises V1

Hunter Deblanc

Hunter deBlanc Night Noises

I hear these noises in the night, Keep me up til the sunlight.
And then I stay asleep all day.

We went out howling at the moon; but you cried wolf just a bit to soon we didnt get to dance the night away.

I got a graveyard of regrets; they come to life when the sun sets
I walk amongst the living-dead

You hear me creeping down your hallway, going zombie-mode like all day. The monster in my own be-e-e-ed.

The skelentons from my past they tell me thst this wont last. They're bones just rattle in my closet. Thats why I
haven't slept for years; I'm up late with my greatest fears. Can't seem to quiet these night noises.

What a tangled web we weaved, my god man, you wouldn't believe, the things that get caught up in what i'm
tryina build.

She's the fly and i'm the spider. I kept her then crawled inside her. And then I move in for the kill.

These Skeletons from my past, they tell me that this wont last. Their bones just rattled in my closet. Thats why I
havent slept for years. I'm up late with my greatest fears. Can't seem to quiet these night noises.

Ooh!
