

I See Trouble Comin

[Scott DeCarlo](#)

You walked in looking too good to imagine
Just like a heartache waitin' to happen
Heading right for me baby I guess this ain't my day
I see trouble coming, But I
I can't get out of the way She's got me staring like a deer in a spotlight
I should know better but I couldn't leave if I tried
Caution lights on me baby just like a moth to a flame
I see trouble coming but I
I can't get out of the way CHORUS
How come the light at the end of a tunnel is always a train
When I'm waiting on a cool breeze I get a hurricane
Blonde hair blue eyes why can't I just run and hide
Lord it's a shame
I see trouble coming but I
I can't get out of the way That big boy with her
Coulda sworn it was her brother
It was give me three steps goin on in living color
I said excuse me
Which ways the fire escape?
I see trouble comin but I
I just can't get out of the way
