## Superman (Save You)

## **The Friday Night Boys**

I'm sure, I'm sure
You can't get over, get over this
The fire's burning in your eyes
I'm only keeping you aliveIf I promise you, promise to never let go
Would you come back to my room?
Would you show me what to do?
I could still save youI can't be superman
And save you, save you
You're falling way too fast to saveI swear, I swear, you'll let me down
But every second you're around
You pick me right up off the groundIf I promise you, promise to never let go
Would you come back to my room?
Would you show me what to do?

Would you show me what to do?

I could still save youI can't be superman

And save you, save you

And save you, save you

You're falling way too fast to saveNo one could help you now
And make it out, make it out
You're falling way too fast to saveI'm sure, I'm sure
You can't get over, get over this
But in my eyes I'm keeping you aliveI can't be superman
And save you, save you

You're falling way too fast to saveNo one could help you now

You're falling way too fast to saveNo one could help you now

And make it out, make it out

You're falling way too fast to save

You're falling way too fast to save
