Out of Time

Jason Collett

Well, I got your invitation
But it never crossed my mind
Your casual obliteration
Would cross the lineOn a rainy day highway
And the melancholy got on
I got the most nostalgic feeling
I'm gonna head right by onWe're out of time
On down the line
Just get behind
We're all out of timeThe perennial fatigue of the times
When you're long in the tooth
Short in the sleeve
There's nowhere left to hideAnd the raindrops fall safely
Along with the tears
Another cool heart of the lonely
In the cool [Incomprehensible] clearWe're out of time
On down the line
Just get behind
We're all out of time
