

Worms

Youth Lagoon

Your foot getting lost, making way against the upgrade
I could see into your pocket you were readying your seasoned switchblade

You're much more competent than they are

But you can't see when you're afraid

I might be a bit deranged, but I've loved you for a decade

[Chorus]

Caught, we walk, I am an apple

Worms can't be unthought

I could be an astronaut

If Earth let go of me

We will always be forgotten but we can be forgiven

The most significant of statements is one that isn't spoken

I'm much more competent than a beast

But I can't see when I'm afraid

I might be a bit deranged, but I've loved you for a decade

[Chorus]

[Bridge]

You make me feel like a king

Like a king

You promised me everything

Everything

We slip away in perfect song
