My Best Friend

Bill Pere

My best friend is myself to be there for me care for me, and for my best time is to be all alone I don't need nobody else thinking I'm in love with me and just sit but I could be a shining star You can always be my friend You might see a girl unhappy but you can never be the one Feeling free in all my loneliness I don't need nobody else My best friend is myself to be there for me care for me, and for my best time is to be all alone thinking I'm in love with me and just sit Heaven knows that life is magic Heaven knows I'm not alone I can see how you relate to me You say you wanna be my friend so maybe you can be the one My best friend is myself I don't need nobody else to be there for me care for me, and for my and just sit best time is to be all alone thinking I'm in love with me So they say that I'm not laughing well I do, I smile within You're the only one to see through me So if you wanna be my friend I think that you can be the one
